

Get paid 30 days faster. Automatically.

AI that chases your overdue invoices — right tone, right time — so your finance team never sends a reminder by hand again.

THE PROBLEM

82% of failed businesses were profitable. They didn't run out of customers — they ran out of cash, waiting on invoices. Most finance teams still chase overdue invoices by hand: 10+ hours a week, inconsistent, and quietly pushing DSO up every quarter.

30%

HOW IT WORKS

01

Connect

QuickBooks, Xero, NetSuite, Sage, or CSV. Live in 48 hrs.

02

Score

AI ranks every overdue invoice by amount, age & risk.

03

Chase

Personalised dunning emails, escalating L1→L2→L3.

04

Collect

Payment links, disputes handled, live DSO + CEI.

WHAT'S INCLUDED

- ✓ **AI dunning engine** — auto reminders, tone escalation
- ✓ **Customer pipeline** — see every account's stage
- ✓ **Dispute management** — pause & resolve cleanly
- ✓ **Live analytics** — DSO, CEI, aging, trends
- ✓ **AI assistant** — ask & act on your AR data
- ✓ **Board-ready PDF reports** — one click

WHY DATABYT

Instead of...	You get
